

Artisan was born out of our 30+ years of frustration working around furniture designed for traditional office spaces rather than for creative studios. Each piece is inspired, designed, and manufactured by production artists for production artists. The entire Artisan series is made to be adaptable and work cohesively in a multitude of spaces. The finish, cable management, accent lighting, and the look and feel of Artisan integrates all of your technology in a seamless way to inspire ultimate creativity among your team.

SC-216
